

## Horary Astrology

It is a question-based Astrology.

Horary is a specific branch of Astrology whereby the astrologer casts a chart for the moment a question is received. **It's applied to bring light onto a specific dilemma.**

Horary provides information to understand the situation requested. It's not about finding answers per se, it is neither about getting suggestions, but to get a clear perspective of the nature of the situation.

It is an ancient technique and over thousands of years it has been polished and refined.

it works on the premise that you are part of the unfolding Cosmos.

Historically, it's been used as a tool to assist Kings, and today is available for everyone.

**It can grant an insight into any aspect of life (personal, professional, academic and social matters).**

Such as:

- Personal legal matters;
- The sale or purchase of a property;
- The employee at work;
- The quality of one's body (vitality and or dis-ease);
- It can indicate past, present or future events, including physical description of people and places, as well as the location or direction of people, pets and missing objects;
- You can also ask a question about an upcoming course, or a retreat, or a vacation you're taking.

**Horary Astrology helps you to respond a specific question!**

How does it work?

The Chart is tailored to the Astrologer's location, and the nature of the problem dictates which of the twelve houses become the center point, ensuring that each chart is uniquely attuned to the matter under review.

The Planets are assigned based on the question, with The Moon, a central player, as a general significator for the situation itself.

The interpretation involves synthesizing planetary positions and their interactions with one another, to craft a coherent response to the querent's query.

**Horary questions can only be asked once.**

**An oracle must be addressed with respect!**

**I suggest not to ask different professionals or techniques the same question.**

While most situations are complex with varying options, take some time to sit with the situation and allow what you really want to know to surface. If you submit multiple questions in one, I cannot select which one is most important to you. Please, ask about a pressing situation.

### Note

- Horary doesn't work with thoughtless-superficial questions;
- It also doesn't work when being tested;
- You cannot enquire about an issue that does not impact you personally;
- Questions can only be asked about an existing situation.

**Avoid asking “Should I...?” - questions.**

Be clear about what you want to know.

Horary question is asking The Cosmos: *What is the current unfolding of The Cosmos in relation to this specific situation?*

**An astrologer cannot make life choices for you!**

I will interpret the symbolism that I read in your chart so that you can make informed choice. Ultimately, responsibility lies with you as to what action you take after receiving your answer. This also means please refrain from asking “*should I?*” questions.

**A Horary Chart cannot offer what the Natal Chart doesn't promise.**

You are asked to submit your birth data, and, along with your Horary Chart, I will check your chart for what energy is available to you based on current transits and planetary periods. If you are looking for something that your Natal Chart is not giving the green light to, there is nothing a Horary Chart can do to fix that.

I will explain the situation and circumstances that the Horary Chart displays, and it is up to you to decide what you do.
